Delegation strategies for the NCLEX, Prioritization for the NCLEX, Infection Control for the NCLEX, FREE resources for the NCLEX, FREE NCLEX Quizzes for the NCLEX, FREE NCLEX exams for the NCLEX, Failed the NCLEX - Help is here Addiction comes about through an associative learning process characterized by compulsive drug taking, craving, and relapse [11, 21]. The pathway thought to be involved in addiction is the mesocorticolimbic pathway which consists of dopamine neurons projecting from ventral tegmental area (VTA) to the NAcc and prefrontal cortex (see Figure 2). Higher Education Products & Services. We're constantly creating and innovating more effective and affordable ways to learn. Explore our products and services, and discover how you can make learning possible for all students. Psychology is the science of behavior and mind (not to be confused with neuroscience, which studies the neural underpinnings of psychological phenomena). Psychology includes the study of conscious and unconscious phenomena, as well as feeling and thought.
