click on the title of any post, it is a link to a separate page that shows all the comments. Scroll down to the bottom of the comments until you see the words newer and newest next to the number of comments on the right, those words are links that will lead you to a new page of comments. Problem using platesolve2 and Gemini 2 - posted in Beginning and Intermediate Imaging: Im having difficulty using platesolve2 in Sequence Generator Pro. Lets say I am trying to set up a model with SGP. I goto a bright star using the Hand Controller. So, lets say the bright star does not appear in the field of view. I could use my finders to ...Autoguiding on CPC 1100 for Astrophotography - posted in Celestron NexStar : Im not sure which forum this should go in since it seems to cross so many different areas, but anyway, here goes --I have the basic CPC 1100 with its alt-az mount. I do not have an equatorial wedge or mount. I have been dabbling in some astrophotography with a Canon ...Smells nice, is a decent price and has a good staying power. I sprayed this once and could smell it in the room for over an hour and that was just the first test spray on opening the bottle.
