

# **Download Discussion Based Online Teaching To Enhance Student Learning Theory Practice And Assessment**

The new edition of what is now considered a classic on online learning has been expanded by about a third to reflect new opportunities offered by social media, new insights and ideas derived from the author's teaching in the eight years since she wrote the first edition, as well as from extensive research in the latest literature. Educational technology is "the study and ethical practice of facilitating learning and improving performance by creating, using, and managing appropriate technological processes and resources". Robert Marzano cuts to the heart of assessment and grading in this essential book. Although there is a mountain of research on the impact of feedback on student learning, teacher feedback is impotent unless it is accurate, timely, and designed to improve performance. Such lists are indicative only, and are really a list of categories of teaching activity, since how each is undertaken may vary widely not only between academics but within the everyday practice of any one academic, depending on the focus of the teaching and the intended learning outcomes for the students.
