Earth Science

Kurt Patrick Wise (born 1959) is an American young earth creationist who serves as the Director of Creation Research Center at Truett McConnell University. Young Earth creationism (YEC) is a form of creationism, a religious belief, which holds that the universe, Earth, and all life on Earth were created by direct acts of God less than 10,000 years ago. Its primary adherents are Christians who subscribe to a literal interpretation of the creation narrative in the Bible's Book of Genesis and believe ... "The heavens declare the glory of God" (Ps. 19:1a). King David could not see deep into the heavens when he penned this bold statement over 3,000 years ago. "since only a small percentage of the earth's surface obeys even a . portion of the geologic column.the claim of their having taken place to form a continuum of rock/life/time.over the earth is therefore a fantastic and imaginative contrivance."
