What's the outlook for babies born earlier than 28 weeks? Fewer than 1 percent of babies in this country are born this early, but these babies have the most complications. Most of these babies are born at extremely low birth weight (less than 2 pounds, 3 ounces). Almost all require treatment with The rest are known as spontaneous preterm births. You may end up having a spontaneous preterm birth if you go into labor prematurely, if your water breaks early (known as preterm premature rupture of membranes, or PPRM), or if your cervix opens prematurely with no contractions (known as cervical insufficiency).
