The first step in the design of any library is a written building program that outlines the library's space needs. An effective program must include input from librarians and library staff who have hands-on experience with the function of a library, its space needs, and the needs of its service population. Sheikha A. is from Pakistan and United Arab Emirates. Her work appears in over 100 literary venues, both print and online, and several anthologies by different presses. Port Manteaux churns out silly new words when you feed it an idea or two. Enter a word (or two) above and you'll get back a bunch of portmanteaux created by jamming together words that are conceptually related to your inputs.
