Vasko Miokovic Photography for Getty If you are trying to cover up your roots that are growing in gray, you have a few options. Hair Mascara "Mascaro" was used in the 19th century by men and women to temporarily cover a few gray strands. You might as well get one, as there are very few other options. Seven years ago, after losing a job in a spectacularly messy way, I walked into a salon and asked for a punk, French, pixie haircut, dyed both black and the most shocking pink possible. I've noticed these small white hairs in my breast (more so under the nipple) that when I pull them they simply come out. If I pull on the small hair itself after pulling it out it turns into several more really small pieces sometimes, and other times the little hair will simply break in half after I have pulled it.
