How Science Figured Out the Age of Earth. For centuries scholars sought to determine Earth's age, but the answer had to wait for careful geologic observation, isotopic analyses of the elements ...Old Earth Belief Have you ever been to a church that claimed that the earth is young? Have you ever felt pressured into believing in a young earth, even though you felt the scientific evidence was contrary to a young earth?Old Earth Creation Science Progressive Creationism . Progressive creationism accepts the findings of modern science. The basic tenet is that since God created the world, we should be able to look at the world and universe, and with scientific investigation, determine when and how God created it.Please note, as a ministry, GotQuestions.org officially holds to young earth creationism. We truly and fully believe that young earth creationism best fits with the biblical account of creation.
