5. Dimension 3 DISCIPLINARY CORE IDEAS—PHYSICAL SCIENCES. Most systems or processes depend at some level on physical and chemical subprocesses that occur within it, whether the system in question is a star, Earth's atmosphere, a river, a bicycle, the human brain, or a living cell. I had my students work in partners for this activity. Each pair had a mat with 4 different frames, a spinner, and a set of number cards. One thing I LOVE about this resource, is how it first activates students' previous knowledge. The next entry I wanted to share with you is on division. I spend about 20 minutes at the beginning of each math block (I have a one hundred minute math block) strictly studying skills.
